Amendment in Response to Notice of Drawing Inconsistency with Specification

R E M A R K S

Approval and entry of this Amendment under 37 CFR 1.312, in accordance with MPEP 714.16(d)(III) is respectfully requested.'

The specification has been amended to correct the description of Figs. 20(b) and 20(c) in the BRIEF DESCRIPTION OF THE DRAWINGS, as well as to refer to Fig. 20(d) in the BRIEF DESCRIPTION OF THE DRAWINGS.

The amendment to the specification is necessary for proper disclosure of the invention, to make the drawings consistent with the specification, and was not presented earlier because the inconsistency did not become apparent until pointed out in the Notice of Drawing Inconsistency with Specification mailed September 2, 2005.

The amendment to the specification does not require any substantial amount of additional work on the part of the Office, and the claims remain unchanged as allowed.

Accordingly, it is respectfully requested that this Amendment under 37 CFR 1.312 be approved and entered, in accordance with MPEP 714.16(d)(III).

And it is respectfully submitted that this Amendment is fully responsive to the Notice of Drawing Inconsistency with Specification.
